## Environmental Policy

B&B Precision Engineering Huddersfield Ltd is committed to minimising the impact of its activities on the environment. It accepts its responsibility for the harmful effects its operations may have on both the local and global environment and is committed to reducing them.

The key points of its strategy to achieve this are to:

Minimise waste by evaluating operations and ensuring they are as efficient as possible.

Promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable.

Ensure that full traceability of materials used to ensure ethical and environmental standards are being met throughout the production are being met.

Recycle any and all scrap metals so as to lessen our impact on the environment.

Ensure where possible to limit the amount of Printing and Paper used and in all cases, recycle the scrap paper.

We try where possible to do everything within our control to have the smallest impact on the environment. Bronte Precision aim to meet or exceed all the environmental legislation that relates to the Company.

Strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.
